Viewshaff Protection Areas  
Index

Maps 1 - 45

**Viewshaff Protection Area**

These areas relate to the Viewshaff Protection Area rules outlined in each relevant Chapter of the City Plan. The relevant Objectives, Policies and relevant specific GPS points for each viewshaff are located in Chapter 6 - Natural Features and Landscapes.

This map is an interpretation of possible building height that could be obtained taking into account topography and the permitted heights of each relevant zone. The map identifies the height that a building or structure could be built to, above the existing permitted height of the zone in which the activity is proposed to be located.
